

# Financing People on the Move

Mission Driven Finance and the Missionary Sisters of the Sacred Heart have launched a new financing program for businesses and nonprofits that intentionally improve the lives of people on the move — **immigrants, refugees, asylees, low-income economic migrants, and survivors of trafficking** — across the United States.

Learn more by visiting <https://bit.ly/MDF-POTM>

## What can you expect from us?

**\$50,000 to \$250,000** loans

**6-month to 4-year** loan terms

**6%** interest rate

**\$250** application fee, up to **1.5%** closing costs

- No credit score required
- No personal guarantees
- No prepayment penalty
- Islamic financing and revenue-based financing options available

“ Mission Driven Finance helped us to be much better prepared than many other nonprofits during the early days of the pandemic. Their investment allowed us to continue our critical programs while we awaited reimbursements. We also doubled our staff to serve more community members. Where we used to reach 4,000 to 5,000 people in a year, we were able to reach over 100,000 through our collaborative initiatives and programs.

— Ahmed Sahid, President & CEO, Somali Family Service of San Diego

# Financing People on the Move

Loans to businesses and nonprofits from this program will support people on the move:

- Immigrants
- Economic migrants
- Refugees
- Survivors of trafficking
- Asylees

We believe that empowering newcomers creates more **vibrant economies** and that developing financial tools for the businesses and nonprofits that support them can have an outsized impact.

Immigrants, refugees, asylees, and survivors of trafficking have **strong entrepreneurial drive** as they build new lives for themselves and their new communities. But navigating complex and biased financial systems often keeps them from getting the capital they need to grow.

If that sounds like you or someone you know, reach out to us or share this with them!
